

Chillventa 2010

eurammon lecture:

“Applications with Natural Refrigerants – country situation and experiences”

When	Thursday, 14.10.2010 09.00 am – 11.30 am
Where	CCN-Ost
Content	<p>At this year Chillventa, eurammon, the European initiative for natural refrigerants, invites planners, operators and system engineers to the English-speaking lecture „Applications with Natural Refrigerants – country situation and experiences“. International experts will be reporting on the current situation and experience gained in the use of natural refrigerants in various different countries, bridging the gap between industrial countries via the emerging nations through to the developing countries.</p> <p>After the presentations, eurammon will be holding its traditional "Brunch for Friends of Natural Refrigerants" at the eurammon stand (hall 1, stand 314), offering an opportunity for those who are interested to enter into discussions with experts and cultivate contacts around natural refrigerants.</p>
Chair	Monika Witt, chair of the executive board at eurammon
